Julius Maliwat

juliusmaliwat.work@gmail.com | +39 3288499739 | Milan, Italy | github.com/JuliusMaliwat | Italian Citizen

Skills

Languages: Python, SQL
Data Engineering: Spark, Databricks, pandas
Cloud & Infrastructure: AWS, Terraform, Git

Experience

Data Engineer, Quantyca - Monza, Italy June 2025 - Present

- Developed shared ingestion components and Terraform modules during an AWS-to-Databricks migration, enabling Data Contract-driven deployment and ingestion for 100+ data products comprising 1,100+ tables
- Built a Python migration utility that generated Data Contracts from metadata across multiple systems, reducing average preparation time per data product by 70%
- Developed Terraform provisioning for the new Databricks platform and data-product environments, implementing segregated access between products
- Built Claude skills to port AWS Glue transformation jobs to Databricks, increasing daily migrations from 1–2 to 4–5 tables per engineer
- Refactored a data product during the migration, reducing processing costs by 85% through Spark optimizations

Data Engineer, Softlab - Milan, Italy June 2024 - June 2025

- Refactored a telecom detection data product in Spark, fixing errors and reducing daily runtime by 70%
- Automated KPI checks for the detection data product, helping the Network team detect anomalies earlier
- Designed and built data pipelines for a 4G/5G monitoring migration from Splunk to AWS, cutting dashboard response times from 4–5 minutes to seconds
- Collaborated with the client's Network team to turn functional requirements into data pipelines for the migration, validated against Splunk

Software Engineer, KPMG - Milan, Italy July 2023 - June 2024

- Automated financial audit data preparation in Python, supporting 10–15 Power BI dashboards
- Built regression checks into an internal tool, helping developers detect failures across flows before release

Education

University of Milano-Bicocca - Master of Science in Data Science Oct 2025
110/110 cum laude
University of Milano-Bicocca - Bachelor of Science in Statistics July 2023
110/110 cum laude

Certifications

Databricks Certified Data Engineer Associate Jan 2026
Microsoft Certified: Azure Fundamentals Oct 2026
